

## National Interest

EB5 Coast to Coast is seeking Behavioral Health, Addiction Treatment, or Medical Service projects for foreign investment. These types of projects can expedite the timeline toward permanent residency.

## \$8M Capital Raise Minimum

Each investor invests \$800,000. Their capital can replace "bridge" financing used to start construction.

## Rural Location or TEA

Rural locations or high unemployment areas are required. Here is a mapping tool to see if your location qualifies.

## Looking for investor capital?

In 1990, Congress created the EB-5 Program to stimulate the U.S. economy through job creation and capital investment by foreign investors.

In return for their investment, individuals and their families who qualified are granted permanent residency.

**You should consider EB-5 capital to expand your company.**

EB5 Coast to Coast recruits, pools, and manages groups of foreign investors so you don't have to. You deal only with us.

New jobs must be created, so only de novo or expansion projects qualify.

The investment horizon is 3 to 5 years. The ROI is typically less than private equity.

The Investment position in capital stack is flexible. EB-5 investments are usually 10% to 50% of the capital stack.

Projects must be shovel ready or close and sponsors must have a long and successful track record.

## UPCOMING CAPITAL RAISE: All Points North

EB5 Coast to Coast is currently working with All Points North for the expansion of their flagship facility in Vail, Colorado. Since 2020, APN has grown to become a leading provider of world-class care for mental/behavioral health, trauma, and substance abuse. With satellite facilities in Denver, Malibu, Boulder, Dallas, Naples and London, UK, its pioneering care approach has resulted in leading outcomes and a strong per patient revenue model.
